

A safe place for social, cultural, physical, financial and mental health

THE CORE

We are getting down to the core of our community with most programs up and running now. It has been a challenging time however, I would like to say what a wonderful team we have. Staff and volunteers have worked differently and been extremely flexible to make sure people's needs are met.

This week we celebrated NAIDOC Week with art and good food with the children and young people from Northlakes High and Primary schools. We also observed one minute silence for our soldiers who fought for our country with a morning tea afterwards.

ASSISTANCE WITH FOOD, VOUCHERS and MATERIAL AID
